

*An endless passion for music for discovery, for life.*

## **INGEBORG (POP/ELEKTRO)**

Ingeborg's name comes from the Nordic Mythology 'Ingibjörg'. It is a combination of the Germanic God Ing and the term Björg, Standing for protection, saviour and help. It complements the strong Nordic story in her music and her mission I want to make a positive impact by creating music and products with a meaningful message, that empower women around the globe to believe in the full potential that lives inside of them. I want to be the voice for women who have been silenced and speak up on their behalf. Ultimately I want to create meaningful products that connect with the heart and provide a beacon to guide women around the globe on their own journey in life, that inspires, and supports them to live it, a meaningful happy and fulfilling experience. Ingeborg is a Dutch Artist and Songwriter born in a city in the Northern parts of the Netherlands, called Groningen. She moved to Switzerland in 2013, starting up a new life and music career from scratch. Not long after she already played a prominent role in different productions of Patric Scott and Jesse Ritch at their album releases and tour, playing on different stages, open airs, on radio and TV in Switzerland and Liechtenstein. And now it is time for Ingeborg to step into the spotlight herself.
